- Ügyvezető, laboratóriumvezető, Igazságügyi toxikológus szakértő – 2000-2011

TPV Diagnosztikai és Kutató Kft.

- Ügyvezető – 2011-2024

MUNKABIZOTTSÁGI TAGSÁGOK

Magyar Szabványügyi Testület

MSZT MB 706 és 824: 1997-2024

CIGRE munkabizottságok: 1997-2024

IEC munkabizottságok: 2000-2024

CENELEC munkabizottságok: 2004-2024

Ahogy emlékeztek rá

„In her life, Maria was a **brilliant chemist**, representing Hungary for more than two decades in several IEC and CIGRE scientific groups. She had a great sense of **humour** and garnered **sympathy** with her **youthful blond hair**. We all mourn her and will remember her for a long time. A minute of silence will be dedicated to her at the beginning of the next TC10 plenary meeting in Roma.” /Ivanka & Massimo/

„Maria was always the **vivid, good mooded** person for all of us, next to her excellent presentations.” /Ivanka/

„I am very saddened by the loss of our dear friend Maria. We knew each other for almost 20 years, she had been a very active member of the various working groups of TC 10.” /Omar/

„I have known Maria for 24 years and remember so many memories of chats, meetings and **small escapes** during the meetings. She was a **personality indeed**, not only for the scientific and professional community. She also had a **no-easy life**.” /Marius/

„My deepest sympathy for you and her loss is very sad for me. Her **professional approach** and **loyalty** in standardization was a great benefit for us. I will miss her **pleasant and encouraging approach** to people.” /Kubalik/

„I loved her **warmth, joyfulness**, she was always **positive** and took the life as it was, trying to live **easy**. She was open and **gave love** to all around her. Even if I haven't seen her for years, she will remain in my heart forever...” /Rainer/

„I remember Maria as a **happy** person, always **smiling** and I really **enjoyed** meeting her in IEC working groups.” /Herbert/

„I am deeply saddened and I know we will all miss her. I will always remember her smile, **warm hugs** and her **homemade Palinka**.” /Kevin /

„I will never forget this **warm** and resolutely **optimistic** friend.” /Yves/

„She was a very **brave** woman with very **strong** personality. Last time I saw her during May 2023 she was very positive and full of hope for the future. She will be gravely missed by everyone who knew her.” /Bruce/

„She was a good **friend**, and we had many good times together when we were travelling to meetings. I will miss her...” /Anne Marie/

„I have, as all of us, very good **memories** of the time passed with her. Maria will remain alive in our memory for a long time.” /Riccardo/

„She would **attract** all eyes and **make** everybody **happy** and **relaxed** during our a bit too formal meetings!” /Duval/

„She will be greatly missed; I knew her as a very friendly lady.” /KR Pieter./

„We will remember Maria as very good **friend** and **colleague**, **cheerful** and **devoted** professional. We will miss her very much, but she will remain alive in our hearts.” /Jelena/

„She was a very good friend, for around 30 years and I will miss her, forever. Now, as it is very difficult to find suitable words to express our deep sadness, what I can say is that Mária's memories of her **good mood**, her **strength**, her **helpfulness**, and her **dedication to work**, will last in our hearts and souls, forever.”

/Maria & Bernd/

„I will always remember the competence, the **joy**, the **positive attitude** and **friendship** of Mária. I will always remember her.” / Anabela/

„Who she was and how she has acted as an expert and as a **very positive thinking** person is very well described by Ivanka...” /Albrecht/

„I will remember her as a **strong** woman, with a lot of **enthusiasm** and **passion**, positive participation in projects and willingness to speak up and share experiences. Above all, I will miss her **kindness** and **joyful remarks**.” /Ed van Schaik/

„Even in my limited interaction with Maria, I could easily sense her abundant energy and enthusiasm. My heartfelt sympathies to her family on this sad occasion.” /CS Narasimhan/

„I have no words to express my sorrow at the sad news of the departure of your beloved Maria. From the very beginning, Maria was not only a **valuable technical reference in terms of knowledge and competence**, but also a **friend like no others**. Her kindness combined with her grace won over not only me but all IEC and CIGRE colleagues.” /Fabio/

„I have had a good relationship with Maria and **jokingly** I called her "Aghia" since we went to Athens together around the year 2000. I was completely unprepared for this sad news.” /Massimo/

„I join you to share the sorrow and express my deepest condolences to the Family of our dear Colleague and Friend, Dr. Maria Szebeni, who has passed away.

With Maria, we have shared frequent and intense moments (over 25 years) within the Sea Marconi Team and the IEC TC 10 Colleagues, focusing on regulatory innovation activities in various competencies (in IEC TC 10 working groups; Cigre, ...etc.).

We admired Maria for her **passion for life**, the **sweet smile of joy**, and the **profound gaze** that accompanied the **intelligent** satisfaction of being appreciated by colleagues.

I want to express my personal privilege to have had the opportunity to actively collaborate with Maria, appreciating her **warmth** and **empathy**, as well as her **strong spirit of service** and **personal and professional commitment** (as a qualified delegate from Hungary).

For those who believe in God, Maria has concluded her Earthly Life, but her Eternal Life continues in the Firmament of Stars in the Sky, illuminating and inspiring her Family, Friends, and Colleagues with her Example.

A heartfelt embrace to Maria's family, with affection, friendship, and esteem.

Maria, may you rest in Peace. Amen.” /Tumiatti/

UTOLSÓ ÉVEK

Mary Elizabeth Frye: Ne jöjj el sírva síromig

Ne jöjj el sírva síromig,
Nem fekszem itt, nem alszom itt;
Ezer fúvó szélben lakom...
Gyémánt vagyok fénylő havon
Érő kalászon nyári napfény,
Szelíd esőcske őszi estén,
Ott vagyok a reggeli csendben,
A könnyed napi sietségben,
Fejed fölött körző madár,
Csillagfény sötét éjszakán,
Nyíló virág szirma vagyok,
Néma csendben nálad lakok
A daloló madár vagyok,
S minden neked kedves dolog...
Síromnál sírva meg ne állj;
Nem vagyok ott, nincs is halál.

„Majd minden megoldódik.”
